ANNUAL MEETING

Ohio River Baptist Association Held at Good Hope Last Week.

The Ohio River Baptist Association held its thirty-seventh annual meeting with Good Hope Baptist church in Livingston county, August 29th and 31st, which was perhaps the greatest inspirational meeting in the history of the Association.

An unusually large crowd was present on the first day and practically all of the routine business of the association was disposed of.

Rev. Hosea C. Paris, pastor of the Second Baptist church of Marion, Ky., preached the introductory sermon, using for a text Isaiah 54: 2, which reads thus: "Enlarge the place of thy tent, and let them stretch forth the curtains of thy habitation; spare not, lengthen thy cords, and strengthen thy stakes; and the Lord said unto Moses; wherefore criest thou unto me? Speak unto the children of Israel that they go forward."

This was indeed a great sermon, in which the speaker emphasized the fact that there is no stand-still in the Christian life and that we should go forward to greater things in kingdom building.

Rev. J. B. Trotter, pastor of the first Baptist church at Marion, Ky., was elected Moderator, and C. G. Thompson was re-elected Clerk.

In view of the great missionary campaign for raising \$75,000,000 for the relief of the victims of the great day of inspiration for starting the campaign in this Association, which is expected to raise at least \$75,000.

We had with us Dr. M. P. Hunt of Louisville, Ky., and Dr. H. H. Hibbs of Birmingham, Ala., who made great addresses, setting forth the great need of having the true Gospel of Jesus Christ preached to all the world, and the duty of Southern Baptists to send the message of religious freedom and of salvation wholly of grace, to the uttermost parts of the earth.

Rev. J. S. Miller of Los Angeles, Cal., who was one of the organizers of this Association, and who was Clerk of the same for 20 years, was with us representing the Western Recorder.

Rev. Will Jones of Blood River Association was present with a lot of good books, and taking subscriptions to News and Truths.

Visitors from Little River Association were Rev. Reed Barnes, Rev. Rudolph Lane and Bro. W. R. McChesney.

The great crowds in attendance were royally cared for by the good people of Good Hope church to whom we extend our warmest thanks.

J. B. TROTTER, Moderator, C. G. THOMPSON, Clerk.

The Shepherd of the Hills

A particular and sentimental interest to Americans centers about the novel of "The Shepherd of the Hills", a picture of which is to be shown in this city. A story more typically American could not be written.

The scenes are laid in the Ozark Mountains, a part of the United States which may be said to have been discovered by Harriet Beecher Stowe, as it is a region little known to the average person beyond those in that immediate vicinity, before the advent of the "Shepherd of the Hills". It has since become a national vacation ground, visited by thousands of tourists every year. A casual visit there showed Mr. Wright its possibilities

and he remained to write a story of present day life in that country. This story is now known in every land, and anyone who has read the book can immediately understand how wonderfully it could be shown in pictures. The picturesque and sturdy mountaineers are faithfully portrayed, and the scenic background is lavish in its display of nature's beauties in Southwest Missouri. The dramatic possibilities of the book lend themselves admirably as well, especially the element of mystery which pervades the whole story and which is so startlingly clear up at the end of the play.

The film will be shown at the Strand Theatre, one night only, Thursday, Sept. 11th.

Lee Morse Back.

Lee Morse, another one of Crittenden county's heroes, came home Wednesday morning, having received an honorable discharge.

Lee has been in the service for two years, and served nine months of that time "over there." He had the misfortune to lose his left leg while over there as a result of a shrapnel wound.

He was home last January on a short furlough, after which he went to Washington, D. C., where he stayed in the Walter Reed hospital until recently. It is his intention to take a vocational training in some school this winter.

Former Citizen Back

Rev. W. D. Humphreys, presiding elder of the Odin district in the Ill. conference was in our office Monday.

Crittenden county is proud of the son of the late S. J. Humphreys, who died in our city two years ago. During the earlier part of his life he lived near Hurricane on his father's farm.

While quite a young man, he joined the church, and soon after began studying for the ministry. For several years he has lived at Waverly, Ill., but will move soon to Odin, where he will engage on his work as presiding elder.

Accidently Shot

While out hunting Thursday, Jim Burton accidentally shot Coleman McKinley.

They were both hunting, but neither knew the other was out. McKinley had his cap off and was stooping down. Burton, coming up just at this time, saw his hair through the bushes, and thinking it was a squirrel, fired, hitting the side of McKinley's face.

McKinley was taken to Evansville Sunday and the shot removed, all but one, which was found in his eye after they brought him home. He was taken back Tuesday to have this one removed.

Democratic Convention Called.

A mass convention of the Democrats of Crittenden county, Kentucky, is hereby called to convene at the court-house in Marion, Kentucky, at two p. m., on Saturday, August 30, 1919, to select the delegates to attend the State Platform convention, which is to be called to order at twelve o'clock, noon, on the fourth day of September, 1919, in the city of Louisville.

All Democrats of Crittenden county are urged to attend the mass convention at the court-house in Marion, Ky., on Saturday, August 30, 1919.

J. I. CLEMENT, Democratic County Chairman.

Anyone interested in the purchase of the Rush Stevenson property now owned by W. T. Bennett will communicate with him at Paducah, Ky. in the

FARMERS MEETING

Fairly Well Attended—Fine Speakers With Timely Messages.

The opening of the Farmers' Chautauque in Marion on last Thursday afternoon will stand out as a mile stone in the progress of Crittenden county. The farmer is at last coming into his own. We predict that much and lasting good will result from this all-important meeting. While every member on the program was well worth any one's attention, some of the members were of special interest.

The University of Kentucky quartette greatly pleased the audience with their spirited music.

Dr. Blackerby of the college of Agriculture in his address, "Feeding for Growth" gave such wholesome knowledge and advice concerning the rearing of the young child, that if followed, infant mortality should be greatly decreased in our county.

Dr. Blackerby of the State Board of Health, told very importantly, how to prevent the spread of contagious diseases; how to avoid epidemics of typhoid, and how to care for cases of tuberculosis and how to prevent the spreading of this great white plague.

M. C. Kroft of the college of Agriculture, urged the farmers to reclaim the run-down land of the county by growing legumes, and to improve their breeds of live stock.

Dr. Brewster, of Cleveland, Ohio, representing the American Association of University Men, delivered one of the most interesting lectures ever delivered on any platform in Marion.

Jeffrey Morgan has always been a welcome speaker on the floor, and actually radiates enthusiasm no matter what subject he discusses.

And last, but not least, Mr. Speed, the Chautauque manager, by his kindly manner and instructive movies, won, not only the hearts of the children, but the grown ups, as well.

The farmers' Chautauque has proven so satisfactory, that we hope it will become an annual institution in Crittenden county.

Another Fire In Town

The grocery store belonging to Twinkle Lanham on East Bellville street burned Wednesday morning about one o'clock. The building had formerly belonged to J. M. McChesney, but was sold last week to Sherman Crayne of the Piney Fork neighborhood.

The insurance on the stock is said to be \$500, and the insurance on the building, \$700. The cause of the fire has not been discovered.

Dinner in Honor of Small Boy.

In honor of little Hice, invalid son of Mr. and Mrs. R. G. Phillips, a dinner was served at high noon Sunday at their home near Pleasant Hill school house, by his aunts, uncles and a few friends.

Everyone arrived early, with boxes loaded with good things to eat. At twelve o'clock dinner was spread on the large lawn and was certainly enjoyed by the crowd.

The day was pleasantly spent in conversation and music.

Hurricane Camp Meet.

The camp meeting of the Hurricane by Smith, of T. T. Adams, closed Sunday.

KENTUCKY

First Deputy Collector of Revenue in Country.

Miss Lavina Woods, formerly of Marion and Ardmore, Okla., was made United States deputy internal revenue collector on July eleventh. She is the first woman in the United States to hold this office. When she was given the position she was clerk in the office of Hubert L. Bolen, United States Revenue Collector. It all came about because of the best bet of Mr. Bolen, believer in equal suffrage, equal rights for men and women—including salary boosts.

"I first knew Miss Woods," said Bolen "when she was private stenographer to Governor Lee Cruse. She was in the governor's office four years. Then she became bond clerk three years for E. B. Howard, state auditor."

"I then offered her a position. I was looking for practical clerks, those who were dependable. She accepted."

When I submitted my recommendation to the department for the promotion of Miss Woods as field officer, I detailed all reasons for desiring to appoint a woman to the position.

"She knew how to meet the public. And, with important qualifications, so necessary in this position, coupled with her keen business ability, I made it a personal matter to see the appointment through."

Miss Woods' work consists in deputizing with headquarters in Oklahoma City, working as in

turns. There are many deputies in Oklahoma and it is said Miss Woods is the only woman to hold the position in the United States.

Miss Woods is the daughter of Mr. and Mrs. P. H. Woods of Ardmore. The Woods are Kentuckians and were life friends of ex-governor Lee Cruse. While residing in Ardmore, Cruse family home, Miss Woods entered the office of Cruse and Bleakmore. She became private stenographer to Lee Cruse when he removed from Ardmore as governor.

Miss Woods is a niece of Dave Woods of this city. All her girlhood and womanhood was spent in Marion. Her old home is now owned and occupied by Mrs. A. Nunn on North Main street. Many people in Marion will be glad to hear of Miss Woods' success.

Providence Coal Operator Weds Marion Girl.

A wedding of much interest to the people of Marion and surrounding communities, was solemnized at Dixon Saturday at three o'clock p. m., Judge A. L. Hall officiating. The contracting parties were Mrs. Bettie Kemp of this city, and S. R. Loton of Providence. Directly after the ceremony Mr. and Mrs. Loton motored to Evansville and other points on a short honeymoon.

The bride is the youngest daughter of the Rev. J. O. Lang deceased, and of Mrs. E. C. Long, of near town, is a beautiful and accomplished young lady numbering her friends by her acquaintances. She is closely connected with several prominent families of this city, being a sister of Mrs. J. M. Parsons, Mrs. Robert Enuchs and Mrs. Alvin Elder.

The groom is one of the most prominent coal operators of Providence. Mr. Loton is one of Providence's best known citizens and is well known in our city.

The happy couple will make their home in Providence, where they will be a great addition to the family there. They are making their home at present with Mr. Loton's sister-in-law, until the completion of their home, a modern bungalow on Cedar street is made.

FISCAL COURT HOLDS SESSION

A Bridge to be Built Over Tradewater River-- Other Notes

Crittenden County Fiscal Court met Sept. 2, 1919, at 9 o'clock. The usual orders were made and the county claims audited and allowed.

County Judge, R. L. Moore, reported his efforts in trying to secure the issue of road bonds, which the last fiscal Court directed him to have issued, and submitted prices obtained by him which were considered unsatisfactory by the court, and he was instructed to make further negotiations and report at the October meeting of the court.

A bridge was ordered built across Tradewater river at Fishtrap, not to cost more than \$10,000.

Mr. Floyd Wheeler received a division citation for exceptional bravery in placing barbed wire entanglements around machine gun outposts. He landed in the States July 28th, and came home last week. He left Wednesday however for Russellville where he will accept a position.

Willard F. Enoch died at his home in this county August 4th, 1919, of cancer of the liver. He has been a sufferer for several years, but until about a year ago his family thought he had stomach trouble. He was taken to Paducah a few weeks ago for an operation, but on finding his serious condition, did not operate. He leaves a wife who was Miss Belle Station, and four children: Mrs. James McConnell, of Arkansas, Lee Enoch, Mrs. Harve Turley and Mrs. Burnett Belt of Rosiclare, Ill.

He was a kind husband and father, and a splendid neighbor and will be greatly missed.

Rev. and Mrs. William Savage were in the city Monday, enroute to their home at Liverpool, England. Mrs. Savage is a daughter of Mr. and Mrs. W. O. Hayden, of Salem and has many friends.

QUIET WEDDING OF POPULAR COUPLE.

Miss Opal Davidson and Mr. Albert Shelby Marry in Evansville.

Miss Opal Davidson and Mr. Albert Shelby were married in Evansville last Thursday afternoon at 3 o'clock at the home of the minister of the First Baptist Church. The only one present was Mr. A. A. Hauffman, manager of the Laib Company, of Evansville, who is a boyhood friend of Mr. Shelby's.

The bride was gown in a handsome dark blue coat suit. She is the attractive daughter of Mr. and Mrs. Marion Davidson, near Marion. She has gone to Johnson's school and has many friends here.

Mr. and Mrs. J. J. May, of Short officiating, with only members of the immediate family present. There were no attendants and the couple met at the improvised altar, where Rev. Short performed the ring ceremony. Miss Josie Paris played the wedding march.

The house was beautifully decorated with plotted plants and cut flowers. The color scheme of pink and white was carried out in the flowers and candles which furnished the light.

The bride's dress was a beautiful creation of white georgette and Satin. The groom wore the conventional black.

Miss May is the oldest daughter of Mr. and Mrs. J. J. May and is a graduate of the high school here and Ruskin College.

Mr. Johnson is the youngest son of Mr. and Mrs. Will Johnson. He has recently returned from the army and is a deserving young man.

Mr. and Mrs. Johnson left soon after the wedding for a trip to the Mammoth Cave. They motored through and were accompanied as far as Princeton by Rev. Short.

Institute Ended Friday.

The Crittenden Co. Teachers' Institute ended last Friday afternoon at four o'clock. It was the best Institute ever held in Marion, and more than usual interest was manifested.

The program Wednesday morning was opened with devotional exercises by Rev. Raglan.

Then followed: - announcements, Supt., J. L. F. Paris.

Miss Florence L. Lewis, State Worker for the Kentucky school for the blind, Louisville, was present a few days and presented the claims of that Institution.

STATE MEMORIAL

For The Boys Who Lost Their Lives in The Great War.

A patriotic movement is now being organized in Kentucky for the purpose of erecting a State Memorial building to perpetuate the memory of those Kentuckians who lost their lives in the service of the country in the European war.

The proposed building is to be erected on the grounds of the University of Kentucky, of dimensions sufficiently ample to house all the student activities of the institution and to establish in the rotunda, tablets bearing the name of the entire list of Kentucky's soldiers who died in the supreme sacrifice.

This work was erected in the European War 1914-1918.

Harry W. James, Editor of the "Crittenden Press", has just received a copy of the monument to be erected on the grounds of the University of Kentucky.

Paducah, Ky., Aug. 22. Practically
everyone in Paducah and vicinity
knows, likes and respects Mrs. A. I.
Isaman, 107 Washington street, Padu-
cah. She has been prominent in lodge
circles here for many years, having
held several high positions in the Good
W. O. W. Circle.

"I must admit that I was never
ready to 'hand in my cards' when I
began taking Trintona," she said. "I
had been suffering from a complication
of troubles for several years. My
bladder and kidneys were out of shape
and my nerves were in bad condition.
I had scarcely any appetite and found
it hard to sleep well at night."

"I do not like publicity and conse-
quently not enthusiastically over my
name used, but I feel that I owe this
statement to the general public and
this time I am writing it for all to see. I am
not nervous any more, my kidneys
and bladder function like a clock, and
I have a splendid appetite. I sleep well
and feel like a new woman. Trintona is
the best medicine I ever took. I have
never found any other medicine that
cleared up and I am grateful to you for
during the past few months. Trintona
seems to have made a new woman of
me."

Trintona is now being sold in Paducah and
expedited at Marion by H. C. Orin's

CRITTENDEN PRESS

Marion, Ky., Aug. 29, 1919.

ECONOMY OF WATERWORKS.

Forgetting all about all other phases of this question, which we shall take up later, a system of waterworks would pay for itself in a very short time, more than likely before a bond issue would become due.

The Press would suggest that the business men of Marion get together sometime in the very near future and figure up what they are paying for fire insurance now and what it would cost them if they had water protection. More than likely the result of such a meeting would be an immediate start on some plan to get the water. We believe that it is perfectly safe to make the assertion that the saving of the business insurance alone would pay for this necessity and all that was gained in a lower insurance rate on the homes and household goods would be enough to pay the water bills of the users of the service. This would not only make the insurance companies pay for putting in the system but pay for the water we use.

Of course the insurance rates are high here now—they are every where when there is no protection. And also of course the people of Marion are financially able to pay these high rates. They are also at liberty to carry their own risk—but only a few do so. But we should like to have the logic of going without water explained to us when the insurance companies are willing to make the proposition for us—in lower rates. The columns of the Press are open to anyone who cares to show us why we should go along from one year's end to the next—without this fire protection.

THE COLYUM.

Back again—we hope to stay this time. Had enough to do the last few weeks though without getting foolish.

It sure pays to advertise. If you don't believe it ask Guy Givens. He is feeding a lot of people around on the north side of the square these days. I tell Guy that it is because he advertises regularly in the Press. Guy thinks the quality of his meals has something to do with it. And we agree with each other that both factors have a lot to do with it.

This week's paper would not be complete without something about the Hurricane camp meeting. Was down there Sunday making good my threat to be at all the meeting places in the county where they had dinner on the grounds. Typical Crittenden county basket dinner and that is the highest praise possible for the good cooks of any community. Wasn't the only thing I went down for but the material things of life are not to be overlooked.

Saw many nice fields of corn and tobacco between here and the camp ground. The worst feature of this trip is the abominable roads one must needs pass over in order to get there. Of course it won't be long before this county is going to have real roads and then a trip out in the country will be a pleasure instead of near murder.

As a by the way the last time I was at Hurricane until Sunday was eighteen years ago. At that time I had never even heard of an automobile. There were a lot of fine cars there Sunday and some few 4ds. Sure looked like prosperity to see them too. Why not? Crittenden county farmers work as hard as anybody—some of them a lot harder than necessary—So why shouldn't they have good cars.

May the time soon come when there will not be a stock barn in Crittenden county that hasn't a silo at the end of it they pay and pay big.

Business matters called me to Smithland Monday. Some four and twenty years ago my father was stationed on that work and I have many pleasant memories of boyhood days in that quaint little town. A number of the good folks I remember there have passed into the great beyond but there are some mighty fine ones left. To those Crittenden county people who are acquainted there the names, Davis, Seyster, Robertson, Able, etc., need not be mentioned the second time.

While there I was entertained at the home of an old time family friend who is however comparatively new in Smithland, Editor John L. Smith of the Livingston Enterprise, than whom there is not a better newspaper man in western Kentucky and I might say that there is not a place in Kentucky, the place where hospitality originated, where the guest is more graciously entertained than in the home of these fine people.

To the casual visitor Smithland would probably appear to be about the dearest town on the face of the earth, in fact it was supposed to have breathed its last as a commercial center many years ago. True there is probably not much business there but in one way the old town is some nineteen years ahead of Marion. They have electricity there twenty-four hours a day. Same day possibly we will have some of the modern conveniences that other towns around of less than one-fourth the size of Marion have now—and a new culvert to take the place that disgraceful bridge—no need to mention the locality—you all know where it is now.—W. SUFFRAGE PLAN OF WORK OF FEDERATED CLUBS OF KENTUCKY.

Whereas, The conditions of war have created the problems of peace, and whereas, these problems demand the united action of the same concentration of power exerted on the part of individual women and the same hearty cooperation among groups of women to win the first partition in fact, as well as respect by our women during the war has revealed, that we, the members of the committee with these purposes in view, offer the following recommendations:

Whereas, The Federal Amendment for woman suffrage has been passed by the Congress of the United States and whereas, the 1920 session of the Kentucky Legislature will have the opportunity of ratifying this amendment, we recommend to the Federated Clubs and to the individual members that they at once take steps to pledge all candidates for the Legislature before the August primaries if possible to the ratification of the Federal Amendment and to the passage of all other legislation securing the political rights of women.

We further recommend that the Federal Senate Committee of the Federated Clubs work in close cooperation with the Kentucky Equal Rights Association in securing the proposed legislation, and that, since the time is now so short until the women of Kentucky will be full citizens, we recommend that the clubs of the Federation take up actively the work of preparing women to use conscientiously and intelligently their new political rights.

Notice.

All accounts over 30 days old not settled by Sept. 15, will be placed with our attorney for collection. Come in and settle up, thereby saving cost and perhaps hard feelings. We must collect.

Mrs. Desha Breckinridge, of Lexington, President of the Kentucky Equal Rights Association.

KENTUCKY MUST NOT FAIL TO DO JUSTICE

Mrs. Breckinridge Tells of Progress of Equal Rights In Other States

Kentucky has been a state for 127 years. The men of Kentucky have been able during that entire time to grant suffrage to Kentucky women by the states rights route. They have failed to do so. This in spite of the fact that the women of Kentucky have been working for over a quarter of a century to get the men to grant them suffrage by the states rights route. In all that time they have never even succeeded in getting a bill through the Legislature. Therefore the voters of Kentucky have never had a chance to pass upon the question. The man who talks about states rights now is usually a man who has been an anti-suffragist during all the time that Kentucky women were trying to get suffrage by the states rights route.

For in the meantime the women of Kentucky and of the other states of the Union have succeeded in getting a bill through the United States Congress to grant suffrage by Federal Amendment. It is now up to the states to ratify this amendment. Though the Federal Bill only passed on the last day of May, seven states having regular sessions of the legislatures this year, have already ratified it. Four states have failed at the special sessions called for the purpose, and nine others have already called special sessions to do so. Kansas

legislature came together for the day, waiting till noon and per diem, and ratified the amendment. This was merely an act of civility to the women of the unfranchised states, since Kansas men had already granted suffrage to their own women by state amendment. Iowa put through her ratification in the record-breaking time of one hour and forty-nine minutes.

The men of Kentucky are to have the chance, either at a special legislative session called for the purpose, or at the regular session next January to repair the injustice that is now being done Kentucky women. Already the women of twenty-nine states, more than fifteen and a half million women are eligible to vote in the next presidential election. Are the women of Kentucky inferior to the women of California, Illinois, Colorado or New York that they should be excluded from voting for the next president? Do the men of Kentucky desire that Kentucky should be a slave to poll only one-half of her adult population in the next presidential election while these other states are voting their full strength?

Suffrage has been granted to the women of nearly all civilized countries. The United States is the only great nation inhabited by English speaking people which has not already granted suffrage by national act to its women. Great Britain, England, Ireland, Scotland, Wales, Canada, Australia and New Zealand have all granted full political rights to their women. There is no question that the United States will eventually be as fair to her women.

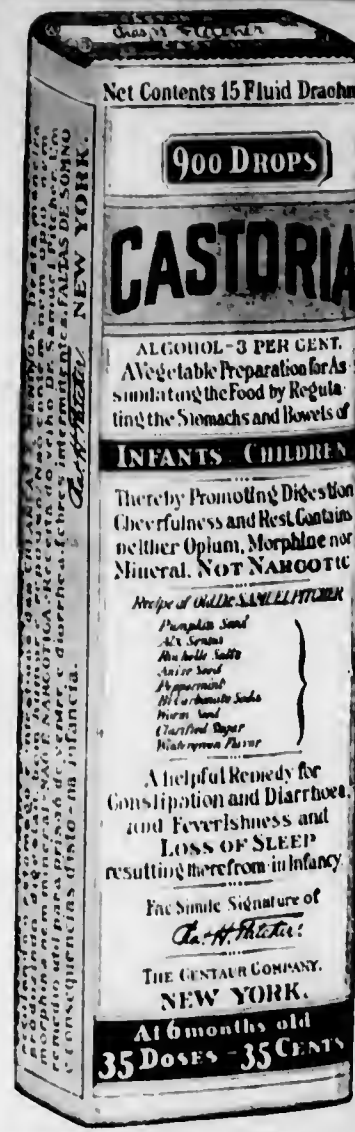

The only question now before the legislators of Kentucky is whether they prefer to delay or to speed up the process of doing justice to American women. In all likelihood the Federal Suffrage Amendment will be ratified by the necessary 36 states even should Kentucky fail to take advantage of her opportunity to ratify. Were it possible for Kentucky legislators by a reactionary policy to defeat the Amendment, and insist that the women must get suffrage by the states rights route, all they could do would be to increase the labors and prolong the efforts of Kentucky women, many of whom have already labored for the greater part of their adult life to get the men of Kentucky to grant them suffrage by the states rights route.

Gentlemen, save your own time and patience and that of your women! Act promptly and generously by these your helpmeets, instead of waiting still longer for your hands to be forced! The Lord loveth a cheerful giver.

EDUCATION AND LIFE

Education is true development only when it trains the faculties to cope successfully with the vital activities of life.

A school system which emphasizes so-called "academic" training and neglects "vocational" training is one-sided, as is the school system which reverses this emphasis.

A thoroughly efficient educational plan provides for all types of mind and talent, recognizing the equal importance of the boy who seeks to prepare for a profession and the boy who desires to enter business or acquire skill in mechanics.

The Marion public school system is organized as far possible on this plan. Thorough instruction in fundamentals is provided for in the Graded School. In the High School two distinct, carefully planned courses are offered; one leads to future work in college and professional schools and lays the foundation of a broad general education; the other provides for the thorough training in modern scientific agriculture. All instruction has constantly in view the development of strong ethical character and efficient citizenship.

There comes a time in the development of every youth when he must "find" himself. It is the time of self-discovery, when the hands of the youth

Marion Public Schools are well prepared to meet the needs of the community at this important development period.

Session of 1919-1920 Opens Monday, September 2nd.

Reasonable tuition rates in Graded School for pupils residing in the graded school district.

Tuition in High School free to all pupils residing in Crittenden County.

Making of good things we not overlook the fact that now has a baseball team reminds one the days by when it was the pride of team in Western Kentucky. Let a game with Marion. The baseball is a healthy sport boosted by any community. The people of Marion should encourage the boys by their presence at the games.

Colonel Lee Vick is installing modern crossing over the ditch at the post office. Hope the material coming left over from the little pile of it by the railroad has been down by the railroad. It would be a good idea to have a little pile of material that so that strangers passing through Marion would at least think that a new bridge was under the feed, cow feed at Wheeler's.

FISCAL COURT HOLDS SESSION

A Bridge to be Built Over Tradewater River—Other Notes

Crittenden County Fiscal Court met Sept. 2, 1919, at 9 o'clock. The usual orders were made and the county claims audited and allowed.

County Judge, R. L. Moore, reported his efforts in trying to secure the issue of road bonds, which the last fiscal Court directed him to have issued, and submitted prices obtained by him which were considered unsatisfactory by the court, and he was instructed to make further negotiations and report at the October meeting of the court.

A bridge was ordered built across Tradewater river at Fishtrap, not to cost more than \$10,000.

Mr. Floyd W. Hays received a division citation for exceptional bravery in placing barbed wire entanglements around machine gun outposts. He landed in the States July 28th, and came home last week. He left Wednesday however for Russellville where he will accept a position.

DOCTOR'S WIFE HAS

PRIDE FOR TRUTONA

Friendship, Tenn., Aug. 7.—Every one tells me I'm looking so much better and I know I feel greatly improved, since taking Trutona," Mrs. J. P. Sims, wife of a prominent Friendship doctor, said recently. "I've suffered with stomach trouble for the past six months and particularly during the past three months I've been troubled severely. "But I feel 100 per cent improved every way since taking Trutona. My food digests better now and the former pains are not so severe and are less frequent. I hope others will give Trutona a trial."

TOBACCO WORMS EASILY KILLED

These destructive pests can do a lot of damage to your valuable tobacco in a very short time. In the old days you pulled them off of the plant by hand. This was a tiresome and disagreeable task and is not necessary any more.

THE MODERN WAY

to get rid of these pests is to use arsenate of lead or Paris green. This method is inexpensive, effective and easy. Does not harm your tobacco plants and is an entirely satisfactory method.

RURAL COMMUNITIES

TO BRING about the development of the American rural community to the purpose of the Bureau of Rural Organization, a newly created department of the Civilian Relief Department of the American Red Cross.
Prof. E. L. Morgan of the Massachusetts College of Agriculture has been appointed director.
Already there are 3,700 Red Cross home service sections operating in the United States, three-fourths of them in places of less than 5,000 population. The needs of the rural districts have been found to be so many and the organized attempts to meet so very few that it will be a part of the Bureau's work to put the community in touch with the organization that can best meet its needs, whether by the Red Cross or another agency.

The American Legion will be a great governmental achievement. Its incorporation in Congress is pending. It is being organized to make laws against alien and domestic disturbances more effective and to make the per cent Americanism a reality.

President Wilson has endorsed the Legion. In the American Legion Weekly of July 25, a letter from the President is quoted as follows: "I am happy to have this opportunity to address a word of greeting and comradeship to the men who have served in the Army, Navy and Marine Corps and are now banding themselves together to preserve the splendid traditions of that service. I have had a chance to see these men on land and sea, at home and abroad. The spirit of their service was as splendid as their success, and the continuation of that spirit in the American Legion will make it always an inspiration to the full performance of high and difficult duties."

Kentucky headquarters, 714 International Building, Louisville, is a place of varied activity. A state employment bureau, under Emmet O'Neil, is in operation, and Mr. O'Neil is in touch with local posts which also have employment officers. Charles H. Moore is War Risk Officer, co-operating with local posts in looking after insurance, bonus and compensation problems of the soldiers and sailors now back home. Colonel Arthur Woods, assistant secretary of war, has asked the full help of the Legion throughout the country in looking after the employment question. Lieutenant H. B. Turner, of his staff, at a conference in Louisville last week arranged with Legion leaders and representatives of the War Camp Community Service, for the immediate opening of a central bureau in the downtown section. Lieutenant Turner is now visiting other cities in the state with a similar object.

Dr. Arthur McGraw, of Bowling Green, as rehabilitation officer, is pushing vocational training and at the same time is interesting medical men in the Legion. James P. Gregory is planning a speakers' campaign, prominent members of the Legion to actively at state headquarters is the fifteen have been thus far and names, according to process of formation.

PROMINENT LODGE WORKER NOW EVER MINDFUL OF DUTY

Padenburg, Ky., Aug. 22. Practically everyone in Padenburg and vicinity knows, likes and respects Mrs. V. I. Iseman, 101 Washington street, Padenburg. She has been prominent in lodge circles here for many years, having held several high positions in the Good W. O. W. Circle.

"I must admit that I was almost ready to 'hand in my shovels' when I began taking Trutoma," she said. "I had been suffering from a complication of troubles for several years. My bladder and kidney were out of shape and my nerves were in bad condition. I had scarcely any appetite and found it hard to sleep well at night."

"I do not lose patience and consequently not enthusiastic over my progress, but I know that I owe this statement to the general public and this time I am writing for the public. I am not nervous any more and my kidney and bladder trouble has disappeared. I have a splendid appetite, sleep well at night now. Trutoma is the finest medicine I have ever found. My complexion has cleared up and I feel perfectly well during the past two months. Trutoma seems to have made a new woman of me."

Trutoma is now being introduced and explained at Marion by H. O'Neil, drug store.

Of all the tires that are made—why do you suppose we prefer to sell United States Tires?

Because they are made by the biggest rubber company in the world. And they know how to build good tires.

They have choice of materials,—they have immense

Camel Cigarettes

They Win You On Quality!

Your enjoyment of Camels will be very great because their refreshing flavor and fragrance and mellowness is so enticingly different. You never tasted such a cigarette! Bite is eliminated and there is a cheerful absence of any unpleasant cigarette after-taste or any unpleasant cigarette odor!

Camels are made of an expert blend of choice Turkish and choice Domestic tobaccos and are smooth and mild, but have that desirable full-body and certainly hand out satisfaction in generous measure. You will prefer this Camel blend to either kind of tobacco smoked straight!

Give Camels the stiffest tryout, then compare them with any cigarette in the world at any price for quality, flavor, satisfaction. *No matter how liberally you smoke Camels they will not tire your taste!*

R. J. REYNOLDS TOBACCO CO.
Winston-Salem, N. C.

18 cents a package

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes, or ten packages (200 cigarettes) in a deluxe paper-covered case. We strongly recommend this ration for the home or office supply or when you travel.

FREDONIA

Notice from a Coal Company

A number of our customers have complained at not being able to find our NAME in the TELEPHONE DIRECTORY. You will find us listed in the "M's" and not the "N's" as our NAME is the MAURIE NUNN COAL CO., NOT Nunn Coal Co. You will find our number to be 225-2 rings. If you want to call at night call 225-3 ring. A call at night may save a long drive the next morning without getting any coal for coal is now hard to get and we do not have it at all times.

Yours for better coal
